Single-pole phase tester

PAN 2000 PROFI

Single-pole phase tester with LCD display, for 12–230 V AC and 12–48 V DC, and non-contact voltage detector

- Single-pole phase test
- **Voltage testing directly or contactlessly**
- **Suitable for DC voltage (ELV) and AC voltage (electrical installations)**
- No battery required for operation

Application Benefits at a Glance:

- Quickly indicates the range of an applied voltage, providing initial guidance in domestic installations and automotive electrical systems.
- Direct and non-contact testing in one compact device; always ready for use without batteries.

Technical Data	PAN 2000
DC voltage DC (V =)	12 V - 48 V
AC voltage AC (V ~)	12 V - 250 V
Weight (gross / net)	31 / 21 g
Instrument dimensions	130 x 21 x 19 mm
Required battery(ies):	---
Measurement category (CAT)	CAT II 300 V
