Phase rotation testers

PAN DFA3 PROFI

Non-contact motor rotation indicator and phase rotation tester for three-phase systems

- **Contactless detection of the direction of rotation on enclosed motors**
- Rotary field indication: green LED for clockwise field and red LED for anticlockwise field
- **Phase indication by 3 LEDs**

Scope of delivery: Case, Test leads, Crocodile clips, Operating instructions

Application Benefits at a Glance:

- Checks the direction of rotation of an enclosed motor without contact or opening the housing.
- Incorrectly connected motors and pumps are quickly identified before or during commissioning.
- On very quiet single-phase heating-system pumps, motor operation can be verified without contact.

Technical Data	PAN DFA3
AC voltage AC (V ~)	120 V - 400 V
Frequency range (Hz)	2 Hz - 400 Hz
Instrument dimensions	130 x 69 x 32 mm
Weight (gross / net)	602 / 130 g
Required battery(ies):	9V 6F22
Measurement category (CAT)	CAT III 600 V
