Cable length meters

PAN KLM 2000 PROFI

Cable length meter with echometer function (TDR/reflectometer) for multi-core cables, network cables and coaxial cables

- Digital display 3000 digits
- **Display backlight**
- **Colour display**
- Data memory for different cable types
- **Cable length measurement 5 - 3000 m**
- **Time domain reflectometry (TDR) / reflectometer**
- For copper and aluminum cables
- Automatic switch-off

Scope of delivery: Case, Test leads, Crocodile clips, Operating instructions

Application Benefits at a Glance:

- Determines the length of installed multicore network and coaxial cables from just one accessible end.
- The remote cable end does not need to be found or exposed - particularly practical in finished buildings.
- Official measurement range from 5 m to 3 km for typical installation and infrastructure runs.

Technical Data	PAN KLM 2000
Instrument dimensions	152 x 62 x 37 mm
Weight (gross / net)	503 / 184 g
Required battery(ies):	2 x 1,5 AA
Accuracy (%)	0,1 % - 2 %
