Cable length meters

PAN KLM30R PROFI

Cable length meter and milliohm meter 0,15–240 mm² for single- and multi-core conductors

- **Illuminated digital display 17 mm**
- Data hold
- **8 individually assignable memory locations for special cables**
- **Cable length measurement 0,1 m - 30 km**
- For copper and aluminum cables
- Automatic temperature compensation
- **Resolution 0,1 mΩ**

Scope of delivery: Case, Test leads, Crocodile clips, Operating instructions

Application Benefits at a Glance:

- Determines the length of individual conductors, cable offcuts and cable drums from 0.1 m to 30 km.
- After selecting copper or aluminium and the conductor cross-section, the length is displayed directly; single conductors can also be measured.
- Automatic temperature compensation reduces deviations caused by cold or heated cables.
