PAN Kabelfinder PROFI

Digital multimeter CAT III 300 V / CAT II 600 V with integrated cable tracer, 16-way cable identification and automatic range selection

- Digital display 21 mm
- LED indication of cable numbers 1 to 16
- Automatic range selection
- Data hold
- **Maximum value memory**
- Diode test
- **Transmitter and receiver for identifying 16 individual conductors up to 10 kOhms**

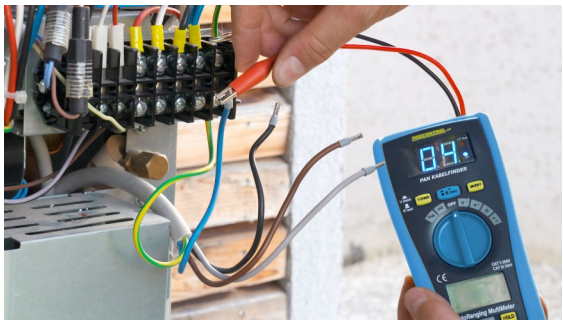

Scope of delivery: Case, Test leads, Operating instructions

Application Benefits at a Glance:

- Identifies up to 16 unlabelled individual conductors quickly and unambiguously.
- Saves the time-consuming manual continuity testing of each individual conductor in control cables and multicore cables.
- After identification, electrical values can be checked directly with the same device.
