Cable and wire locators

PAN Leitungsfinder

Cable locator up to 400 V for electrical, water and heating lines, detects interruptions, fuses and circuits

- **For locating cables in walls, cable interruptions and short circuits**
- Digital display
- **Display backlight**
- **1-stage contactless voltage testing (NCV)**
- Cable tracing
- **Enables assignment of fuses and miniature circuit breakers to sockets**
- **Locates water and heating pipes**
- Locates accidentally plastered-over sockets and junction boxes
- Automatic switch-off

Scope of delivery: Test leads, Crocodile clips, Case, Operating instructions

Application Benefits at a Glance:

- Traces electrical cables as well as water and heating pipes when installation plans are unavailable.
- Matches sockets to the correct circuit breakers and locates cable breaks.
- Reduces unnecessary opening up of walls during repair, alteration and renovation work.

Technical Data	PAN Leitungsfinder
DC voltage DC (V =)	12 - 50 - 120 V - 230 - 400 V
AC voltage AC (V ~)	12 - 50 - 120 V - 230 - 400 V
Weight (gross / net)	750 / 414 g
Required battery(ies):	2x 9V 6LR61
