Cable and wire locators

PAN Multidetector

Wood, metal and cable detector with visual and audible indication of live cables

- 125 - 250 V AC
- **Contactless indication of AC voltage by red LED and audible signal**
- Fully insulated, no metallic contact
- Acoustic indication of live conductors
- Acoustic indication of non-live conductors
- **1-stage contactless voltage testing (NCV)**
- Locates accidentally plastered-over sockets and junction boxes
- **Locates wooden beams, metal supports, water pipes and power cables in walls**
- Automatic switch-off

Scope of delivery: Operating instructions

Application Benefits at a Glance:

- Checks a drilling location for wood, metal, water, gas and electrical lines in a single pass.
- No prior selection of the target material is required - the key result is whether drilling should be avoided at that location.
- Live electrical lines are highlighted by an additional LED and a distinctly different alarm tone.

Technical Data	PAN Multidetector
Instrument dimensions	143 x 61 x 31 mm
Weight (gross / net)	202 / 92 g
Required battery(ies):	9V 6F22
